Quebec

Quebec

Quebec, founded in 1608 by Champlain, is the oldest city in the Dominion. In historic interest, Quebec excels any city on the American continent, and many of the world renowned sights stand practically to-day as they did at the time of the stirring events which made Quebec famous. It is the port of entry for all Atlantic Liners, and has a magnificent situation on the banks of the St. Lawrence, with the noble and stately Citadel standing guard in the foreground. Although outstripped in growth by other cities in Canada, Quebec, on acccount of its great picturesqueness, its old-fashioned, quaint streets and buildings, and the extraordinary contrast of its old world appearance with the new world around it, stands alone, and yearly attracts many thousands of tourists.
